### ERASMUS+ INDIVIDUAL MOBILITY FOR DOCTORAL STUDENTS

**All doctoral students enrolled at L'Institut Agro** are eligible for Erasmus + mobility grants to train and develop their professional skills.

Mobility has to take place within a **partner university** (the list of partners is displayed on the online form: <https://international-mobility.institut-agro-rennes-angers.fr/fr/doctorant-erasmus> )

Mobility within the [ELLS network](#) is a priority for l'Institut Agro:

- **BOKU** - University of Natural Resources and Life Sciences Vienna, Austria
- **SLU** - Swedish University of Agricultural Sciences, Sweden
- **UHOH** - University of Hohenheim, Germany
- **WUR** - Wageningen University & Research, The Netherlands
- **CZU** - Czech University of Life Sciences Prague, Czech Republic
- **SGGW** - Warsaw University of Life Sciences, Poland
- **NMBU** - Norwegian University of Life Sciences, Norway
- **EMÜ** - Estonian University of Life Sciences, Estonia
- **UdL** - University of Lleida, Spain
- **Unitus** - University of Tuscia, Italy

Some summer schools are also offered by the ELLS network: <https://www.euroleague-study.org/en/r-20338-study-offers/r-20351-summer-schools>

The Erasmus + programme allows students to carry out a mobility in another institution abroad in order to acquire new skills. The students remain enrolled in their home institution. This mobility is validated and recognised by the home institution as an integral part of the thesis.

**The laureates must have completed their mobilities before 30 July 2026.**

## Funding awarded

Erasmus+ grants are intended to cover **part of your mobility costs** (living costs and travel costs):

Duration: we can finance stays **from 5 to 30 days (short-term mobility) or from 2 to 5 months (long-term).**

Training costs, registration fees and research costs are not covered by the Erasmus+ grant. A short stay to attend only a conference or seminar is not eligible.

**Amount of grants and expenses covered: See Annex 1**

## Objectives of the mobility

### Stay for training, acquiring new skills:

The general objective is to train on complementary aspects (advanced methods, specific case studies, for example) which are new and not available locally. Doctoral students can combine formal training activities and training through research (in the laboratory) in the same stay.

## Application procedure

Call for applications: OPEN

Application deadline: **5 July 2025**

Doctoral students complete the online form available at this address: <https://international-mobility.institut-agro-rennes-angers.fr/fr/doctorant-erasmus>  
(French and English versions available)

**Only complete forms will be taken into account.**

### Important:

- Validate the mobility project with your thesis director (you are requested to attach a letter or email of support to your online application)
- Contact the host research unit and obtain its agreement on the mobility, state the period and the scientific objectives (you will be asked to attach a letter or email of acceptance to your online application)
- Prepare a letter of motivation and a provisional budget to attach to your online application

## Selection

The selection committee checks the eligibility of applications and then grades the applicants according to the criteria presented below.

### Selection criteria

1. Relevance of the objectives of the mobility to the thesis project (/3 pts)
2. Motivation and impact of the mobility on the doctoral student (/3pts)
3. Impact of the mobility on the home research unit (/2 pts)
4. Quality of the planned organisation and contacts with the host unit (2pts)

**Bonus** will be awarded to:

- mobility within the ELLS network
- first time mobility abroad during the PhD
- first Erasmus+ financing during the PhD
